# ALLCOAT

Create a truly unique space, that's yours alone!™

## Quality you can see, professionalism you trust™

Founded on the principles of customer service, creativity and value, AllCoat was created by two industry veterans who were convinced that there was a better way for property owners to beautify, protect and preserve their investments.

## Traditional values and the latest technologies create the AllCoat experience

Like everything these days, new surfacing technologies and techniques are constantly being introduced.

AllCoat's expert team of creative craftsmen is up-to-date with the wide variety of coatings, stains and finishes in use today. Being proficient in this broad palette of materials helps AllCoat work with you to realize your vision.

Whether you're looking to create a one-of-a-kind look or to breathe new life into an old pool deck, patio or garage floor, AllCoat is there with quality you can see and professionalism you can trust. ●

Create a truly unique space, that's yours alone!™

Whether its' epoxy, polyurethane, or polyaspartic, AllCoat offers a wide variety of resinous flooring systems to suit your performance and architectural needs. Our commercial grade products provide permanent substrate adhesion as well as chemical and wear resistance to keep your floor looking great for years to come. 🌟

Quality you can see, professionalism you trust™

### Solid Color

Available in 4 standard colors this system is an economical way to add beauty and functionality to your work space. Prevention of concrete dusting, ease of cleaning, and enhanced appearance are just a few of the benefits of a resinous flooring system. Custom colors available upon request. 🌟

### Common uses for Resinous Coating:

Restaurants, offices, showrooms, retail, home interiors, patios, garages, driveways, hangers, warehouses. 🌟

Call us today to schedule your free in-home estimate.

### Granite Chip Flooring

Chip floors consist of a blend of multi-colored vinyl chips embedded into a solid color resinous base coat and then top coated with clear polyurethane or polyaspartic top coats. Available in 14 standard blends and sizes 1/8", 1/4", and 1/2", you can choose the color and size to match your décor. Additional and custom chip blends available upon request. ●

*"They're dependable, know what they're doing, and know their product. An A-1 job at the right price, with great customer service."* – AllCoat Customer

Create a truly unique space, that's yours alone!™

## Quartz Flooring

When added durability, impact resistance, and abrasion resistance are needed, decorative Quartz flooring is the answer. Tough quartz aggregate is broadcasted into 100% Solids Epoxy Matrix and clear coated with industrial grade epoxy or polyurethane top coats. Multiple layers may be applied to vary the finished texture from smooth "Orange Peel" to rough "Sand Texture" for wet areas. Available in 13 different blends. ●

BUTTERSCOTCH

**Common uses for Concrete Stains:** Interior and exterior stains, walkways, patios, retail space, and restaurants. ●

### Concrete Stains

Concrete Stains are unique materials which react with concrete to produce an old world variegated look that is infused with the concrete substrate. Available in 8 standard colors and can be used in interior or exterior applications. Once stained, all finishes are sealed with the appropriate acrylic or polyurethane system depending on intended use. Sealed finishes are available in either Gloss or Satin. Considerable color variations will occur from application and reaction with the substrate. Old or worn substrates may need to be coated with Polymer Modified Cement for this application to be effective. ●

## Pool Decks

Repair, replace, or newly designed and installed... We can create colors and textures that add safety, beauty and durability to your pool/patio area. ●●

Create a truly unique space, that's yours alone!™

Is your concrete floor or walkway cracked, tired and old-looking? We are experts in overlay technologies needed to repair and rejuvenate old tired concrete. ●

## Overlays

Polymer modified cement overlays are a great cost efficient way to refurbish old concrete or add a decorative touch to a new area. Polymer overlays produce a cementitious material that has superior strength and flexibility over conventional concrete and can save you up to 75% when compared to natural stone products. This product is installed in multiple layers and is troweled, sprayed, or stamped to produce unlimited textures. It is also available in many designs. Standard patterns include flagstone, tile, brick, spray deck and splatter textures. Spray deck is available in 8 standard colors. We also offer over thirty stencil designs. ●

### Common uses for Overlays:

Walkways, restaurant entries, home interiors, patios, pool decks, driveways ●

AllCoat is not a franchise or part of a large conglomerate. We are a local business with a combined 26 years of hands-on coatings experience.

Your call to us will be answered in a professional and courteous manner. All quotes are written by a professional who knows coatings and can help you explore the possibilities of what can be achieved to enhance your home or property. When you request a quote or other information, you will get a quick response that is clear and easy to understand. All work performed by AllCoat is covered by our warranty.
